PROFESSIONAL PROFILE

I am a motivated Software Development student at Uncommon.org with a strong interest in building useful, responsive and user-friendly digital products. I enjoy turning ideas and problems into practical solutions through code, design and continuous learning. I have around 4 months of practical experience and have worked on 6 software projects, giving me hands-on exposure to frontend development, databases, version control and real-world problem solving. I am now looking for an internship opportunity where I can contribute to a professional team, learn from experienced developers and continue growing into a confident software professional.

QUICK PROFILE SNAPSHOT

04+ MONTHS Practical Experience	06 Software Projects	FRONTEND Primary Development Focus	INTERNSHIP Current Career Goal
---	--------------------------------	--	--

TECHNICAL SKILLS

FRONTEND DEVELOPMENT:	HTML5, CSS3, JavaScript, TypeScript, React.js, React.tsx, Responsive Web Design, User Interface Development
DEVELOPMENT TOOLS:	Git, GitHub, VS Code, Vercel, Render
DATABASE & DEVELOPMENT:	Database Management Systems, Database Fundamentals, API Fundamentals, REST API Concepts

PROFESSIONAL STRENGTHS

Problem Solving

Attention to Detail

Clear Communication

Team Collaboration

Adaptability

Continuous Learning

Creativity

Resilience

PRACTICAL EXPERIENCE

SOFTWARE DEVELOPMENT — PRACTICAL EXPERIENCE

Uncommon.org / Personal & Academic Projects

Approximately 4 months

- Built and deployed practical web applications using modern frontend technologies.
- Developed responsive interfaces using HTML, CSS, JavaScript and React.
- Practiced TypeScript and component-based development.
- Used Git and GitHub to manage and track development work.
- Worked with database management concepts and structured data.
- Debugged development problems and improved application functionality.
- Turned project ideas into working digital products through planning, development and testing.
- Continued learning through projects, online certifications and practical software development exercises.

SELECTED PROJECTS

6 practical projects demonstrating my development journey.

01 BUSINESS TRACKER

React.js | JavaScript | Web Application

A business-focused web application designed to help users manage and track business information through a structured digital interface

GitHub <https://github.com/sirjani05/business-tracker>

Live Demo <https://business-tracker-chi.vercel.app/>

02 TRAVEL JOURNAL

HTML | CSS | JavaScript

A responsive travel journal project created to present travel experiences and information through an engaging and user-friendly web interface.

GitHub <https://github.com/sirjani05/Travel-Journal>

Live Demo <https://travel-journal-nine-sigma.vercel.app/>

03 FLAVOR FOUNDRY

Python | Web Development

A web-based project focused on creating an interactive digital experience around food and recipes while applying practical software development concepts.

GitHub https://github.com/sirjani05/Flavor_Foundry

Live Demo <https://flavor-foundry.onrender.com/>

04 VIVID HORIZONS

JavaScript | Responsive Web Development

A visually focused web project designed around photography and exploration, with an emphasis on presenting content through a clean and engaging interface.

GitHub <https://github.com/sirjani05/Vivid-Horizons>

Live Demo <https://vivid-horizons.vercel.app/>

05 DATABASE MANAGEMENT SYSTEM

Database Management | GitHub

A database-focused project demonstrating practical understanding of database management concepts, organization and working with structured data.

GitHub <https://github.com/sirjani05/DBMS>

06 SUPER FERT

Software Development Project

A software project developed as part of my practical development journey, demonstrating my ability to take an idea from development through to a working project.

GitHub https://github.com/sirjani05/Super_Fer

EDUCATION

UNCOMMON.ORG

Software Development Program
Harare, Zimbabwe

Currently developing practical skills in software development, frontend technologies, programming fundamentals, databases, Git/GitHub and modern approaches to building digital products.

GLENVIEW 1 HIGH SCHOOL

O-Level Certificate
Harare, Zimbabwe

Completed secondary education and developed the academic foundation that led to my interest in technology and software development.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

UXCELLE

Typography; Color Psychology for UX/UI Design; Wireframing; Core UI Components; UX Research; Design Composition; UX Design Foundations; Product Designer

COURSERA

Cybersecurity Foundations & Threat Mitigation; Introduction to Software Development; Prompt Engineering; Python Crash Course; REST API

GOOGLE GARAGE

Fundamentals of Digital Marketing

CAREER OBJECTIVE

To secure a Software Development or Frontend Development internship where I can apply my current technical skills, gain real-world industry experience, contribute to meaningful projects and learn from experienced professionals. My long-term goal is to become a well-rounded software developer who can combine strong technical thinking with good design, problem solving and an understanding of the people who use the products I build.

WHAT I BRING

WILLINGNESS TO LEARN

Ready to learn from experienced developers, accept feedback and continuously improve.

BUILDER'S MINDSET

Enjoys learning by creating practical digital products.

CURIOSITY & PERSISTENCE

Willing to investigate problems, learn from mistakes and keep improving.

DESIRE TO GROW

Looking for an environment where contribution, mentorship and continuous development can happen together.
